MEMORANDUM FOR THE RECORD

SUBJECT: Acceptance of the First Unit of the Production [redacted] 1540 Light Tables 25X1

1. On 22 January 1971 all required fixes had been incorporated on the first unit [redacted] of the production [redacted] 1540 Light Tables. 25X1 25X1
Cognizant TEB and RED personnel have reviewed these fixes and pronounced them acceptable. The only remaining technical problems are with respect to the Color Rendering Index and the UV Certification.

2. The problem with the Color Rendering Index is presently being reviewed by [redacted] personnel, the supplier of the fluorescent tubes, and [redacted] The answer to this problem appears to be a week or so away. 25X1 25X1
The certification of UV radiation levels should be received sometime during the week of 25 January 1971.

3. Maintenance manuals are still to be delivered under the terms of the contract. A final draft of the manual is expected to be received by 25 January 1971, and delivery of the final manuals to begin later in the same week.

4. Except for the two problems of Color Rendering Index and UV Certification, [redacted] of the production units of the [redacted] 1540 Light Tables is an acceptable instrument. Under the terms of the contract all tables produced under this contract must meet or exceed the specifications of the Technical Requirements for the Production of the [redacted] 25X1 25X1
[redacted] Split-Format Light Table and Mount for Various Microstereoscopes.
